BRAMKAS INC / SERVICES & TALENT

Capability statement

Technology & data center talent. Leadership. Specialist delivery.

BRAMKAS is a services firm established in 2010 in Ashburn, Virginia. We support technology and data center recruiting, executive search, and specialist delivery for enterprise, healthcare, and government-related programs. Scope, responsibilities, and timing are agreed for each engagement.

CORE CAPABILITIES

Technology staffing

Specialist capacity for existing teams through contract, contract-to-hire, and direct-hire arrangements.

Data center recruiting & staffing

Sourcing and screening for data center technicians, electricians, electrical and mechanical engineers, HVAC, and critical facilities roles. Location, shifts, equipment experience, and credentials inform each search.

Recruitment process outsourcing

Sourcing, screening, interview coordination, and recruiting operations shaped around recurring hiring needs.

Executive search

Focused leadership search for technology, enterprise AI, healthcare IT, and Health-Tech organizations.

Cloud modernization

Workload assessment, migration planning, cloud infrastructure, and application modernization support.

DevOps & DevSecOps

Delivery pipelines, infrastructure as code, release workflows, and security integration.

Cybersecurity

Security assessment, operations support, risk prioritization, and compliance-readiness assistance.

Generative AI integration

Workflow pilots, enterprise knowledge retrieval, model integration, evaluation, and human oversight.

Custom software development

Application development, APIs, integrations, legacy modernization, workflow automation, and software testing.

Data engineering & analytics

Data pipelines, integration, warehouse and lake architecture, reporting, and governance support.

IT consulting & strategic advisory

Architecture assessment, technology roadmaps, vendor evaluation, and modernization planning.

DATA CENTER RECRUITING SCOPE

Data center services cover recruiting and staffing support. Employer responsibilities for final credential checks, site access, safety training, and supervision are agreed upfront. Electrical contracting, engineering design, and facility operations are outside this recruiting service.

Let’s discuss your next requirement.
